

PRODUCT SPECIFICATION

REF 510003320 SALVEQUICK X-RAY DETECTABLE PLASTERS

1 GENERAL PRODUCT DESCRIPTION

Description

X-ray and metal detectable, waterproof, adhesive bandages (plasters), of two sizes, medium and senior, packed in a cardboard refill intended for the Cederroth (Salvequick) dispenser for adhesive bandages.

The Salvequick X-Ray detectable bandages are detectable by most common x-ray and metal detectors and the blue color also makes them easy to detect visually, which makes these plasters suitable for restaurants and the food industry. The plasters can easily be pulled out with just one hand and applied on the wound.

The adhesive bandages consist of a backing, evenly spread with an adhesive coating and with an absorbent pad fixed centrally to the dressing. The X-ray indicator is located between two aluminum foils behind the wound pad. When the adhesive bandage is pulled out from the package, both covers need to be removed before usage.

Storage information

Dry storage in room temperature. For maximum protection, keep in original package until use.

2 DETAILED PRODUCT INFORMATION

Content per consumer unit

<u>Product/Material</u>	<u>Quantity (pcs)</u>	<u>Dimensions (mm)</u>
Refill packages	6	30 x 88 x 100

<u>Per refill package:</u>		<u>Dressing</u>	<u>Wound Pad</u>
