

PRODUCT SPECIFICATION

REF 1739 RESCUE SIGN - STRETCHER

1 GENERAL PRODUCT DESCRIPTION

Description

Green-yellow photoluminescent double sided sign for signaling where first aid equipment (stretcher) can be found. The photoluminescent afterglow remains up to 15 h after having been fully charged by light. The sign has holes in each rounded corner for screwing onto the wall.

Accessory:

REF 1750: Adhesive sign clip, which can be used for mounting of the sign pointing out from a wall or hanging down from the ceiling.

Storage and cleaning information

Dry storage in room temperature with no direct sunlight.
Avoid mechanical damages as well as sharp bending of the material.
For maximum protection, keep the products in original package until use.

For cleaning of the surface only water with alkaline cleansing agents are permissible, a second washing with clear water is recommended.
Do not use abrasive detergents (e. g. scouring agent), alcohol or solvents.
